

IDEA BOOK

Who is Clipper?

Clipper Corporation is a leading provider of commercial quality smallwares and textiles to the foodservice industry. Our mission to serve and supply operators with thoughtfully designed commercial quality products through our sourcing and supply chain efficiencies.

We work directly with foodservice operators every day to find economical solutions to meet your specific needs. Our “Idea Book” represents a wide array of our offerings and our capabilities we currently deliver to leading foodservice operators, just like you. This book is designed to give you a better understanding of where we excel and succeed in delivering cost effective solutions and the services we provide. In addition to the items within this book, we have a variety of other options to service your specific needs. Just ask... as we’re always ready to serve you and provide cost effective solutions to your operations’ needs.

...That’s the Clipper Difference!

High Temp Pans & Accessories

Holding Units are the quintessential tool for every QSR. Eliminate hot and cold spots while increasing product hold times. The use of conduction, where heat is transferred directly to the pan and then the food and passive venting to adjust heat in the space, keeps food tasting its best. Clipper offers a variety of solutions from sealed covers, vented covers, solid covers and food pans.

Fry Pans

Nothing takes more abuse than cookware in the kitchen. Restaurants of all types use a variety of Stainless Steel or Aluminum, Nonstick or Natural. Commercial quality cookware take a beating as they are used over and over all day. Need a solution for searing or require high heat? Aluminum is your solution. Cooking in front of a crowd that needs the benefits of presentation and easy to clean? Nonstick is your answer. Every day use? You can't go wrong with Aluminum. Clipper supplies a variety of cookware options to keep your kitchen cool when the heat gets turned up. Our every day solutions help you keep your kitchen running efficiently while never compromising quality. It's the Clipper Promise.

Cutting Boards, Knives & Accessories

A busy kitchen needs to run efficiently and safely. Cutting boards are a key element in preventing cross contamination and promoting HACCP guidelines. Clipper can source and supply a variety of different cutting boards to meet your specific needs. Color coded, variety of thicknesses, or even integrated grip designs are available in low volume options. The key to keeping your kitchen running efficiently is to make sure cutting boards are replaced when cut-grooves appear, making the board unsafe for potential cross contamination. Our low cost options allow you to promote the food safety practices without breaking the bank!

Cutting Board

- High-density polyethylene won't dull your knives, keeping your kitchen running efficiently
- Non-porous design won't stain or absorb odors
